A DENIAL SENT FROM WASHINGTON.

Not Customary for One Nation to Dictate to Another in Such Cases.

WHAT THE STATE DEPARTMENT IS DOING.

Preparing Figures Which Will Show the Italian Government How Many Objectionable Citizens We Have Received.

ROME, April 11.-The principal topic of conversation teday hos been the latest report, put in circulation last evening, to the effect that unless the American government made a speedy reply to Premier Rudini's last note Minister Porter would be politely requested to leave Rome and the Italian legation be recalled from Washington. Such an attitude on the part of the Italian government seemed so unreasonable, in view of all the recent developments, that last night's report was at first generally discredited. Many of the newspapers, however, today gave it prominence and asserted their belief tnat it was substantially correct. They say America will be allowed until April 14 to reply. The original report fixed today as the timit.

The original source of the report seems to give it increased plausibility. This, it is learned, was a prominent member of the chamber of deputies, who is an ardent supporter of Rudini and believed to have his confidence.

Whether or not the premier has actually decided already upon the extreme course indicated, it is unquestionable that this course is under discussion in high government circles and meets with favorable comment. It may be that the deputy who started the report supposed the decision had been reached, when the subject was really only being considered, and it may be that the report was given out to test public opinion before the cabinet should commit itself absolutely to so grave a step.

Dispatches from America hint that Secre tary Blaine has aiready prepared his answer and that it is thought likely that he has already sent it to Rome instead of through the Marquis Imperiali.

# THE FEELING IN ROME.

The King is Offended by the Pictures

LONDON, April 11 .- [Special Cablegram to THE BEE. |- A Rome dispatch says that everybody is on the qui vive for the next act in the Italian-American drama. Crispi has openly declared that the Rudini cabinet dare not make a serious demand for redress upon the United States, and that the Italian people have been held up to ridicule by the vacilation of the ministry. The statement that American utterances have had an influence in provoking the hostile feeling is confirmed. In addition to the press dispatches the consu-general at New York has kept his govern-ment fully informed of the editorial expressions of the press of that city. These are considered as extremely obnoxious in their tone of contempt for Italy's strength, both naval and military. A carreature which is said to have given personal offense to King Humbert is one in which a monkey figures with a crown on its head and with features bearing a resemblance to those of the king. The clerical or vatican faction is alleged thave circulated widely wood cuts of thes caricatures as showing American hatred and contempt for the quirinal. Altogether, what-ever the outcome of the difficulty, the feeling toward America in high Italian circles is ver Among the lower orders the compli cation is having a contrary effect.

The people seem to anticipate that the stes of the American paradise are about to be shut on the Italians, and there is a rush to get in before they close. The ports are thronged with intending emigrants, and families from patriarch to babe can be seen trudging along the high-ways that lead to the points of departure. The authorities are making efforts to dis-The authorities are making offorts to dis-courage emigration, but without effect. Nothing short of bayonets can stay the torrent. Most of the emigrants are said to be hard working and worthy peasants, but very ignorant and dirty. The increase of taxes has also tended to promote emigration.

American Travelers Safe. Rome, April 11 .- [Special Cablegram to THE BEE. |- In reply to a number of inquiries received at the United States legation in this city, from Americans intending to visit Italy during the coming season, as to whether It is safe in view of the agitation caused by the New Orleans lynching to travel in Italy, the officials of the legation have assured the inquirers that it is perfectly safe to travel in this country. They add that not a single case of insult or outrage in which an Ameri can has been the object has been reported to the legation. Italy is too dependent upon moneys spent by travelers, which sums are estimated to amount to \$1,000,000 annually, to do anything that would curtail that expenditure, especially upon the part of travelers from the other side of the Atlantic, who are considered with the English, to be the most liberal dispensers of oil. Of this sum it is reckened that Amer-ican travelers spend fully one-fifth. It is further estimated that 30,000 American travelera visit Rome each year, most of the ho tels and stores of this city depending mainly upon Americans for support. In any case the excitement supposed to exist here has been greatly exaggerated. So far as the present condition of affairs is concerned no

during the president's approaching absence from Washington. It is now a matter of positive knowledge that the Italian government has not sent to this government or any of its representa-lives a notification that a reply is expected

to the Marquis Rudini's note within any specified time. It is not customary in dip-lomacy for a nation to undertake to dictate lomacy for a nation to undertake to dictate the date of correspondences coming from another nation, and had Italy adopted this course it would certainly be regarded with umbrage by our own government and would excite great surprise among diplomats of other nations, whose customs are regulated by unwritten but almost immutable law. As stated in Secretary Blaine's letter to the Marquis Imperiali, the government of the United States proposes to deal with the questions at issue earnestly, but with caution and deliberation. The department of state is not contenting itself with a specific inquiry into the history of the antecedents of the New Orleans victims. It proposes to show the Italian government the extent of the evil of unrestricted immigration from which the unrestricted immigration from which the United States is now suffering, and this purpose necessitates plain dealings with the character of a considerable element of our population which has largely been re-cruited from Italy, so that some interesting statistics are in course of preparation that will tough with blunt directness upon a number of murders and outrages committed in re-cent years in the United States by members of the Mafia and other secret Italian organizations and upon the vendettas that are im-ported into the United States to the disturb-

Time is required to compile these facts and the department will take the necessary time In high official circles there has been no change in the opinion that the New Orleans matter is being manipulated in Italy to influence Italian politics. An Italian Editorial

New York, April 11,-L'Eco d'Italia has the following editorial: "It is now nearly a month since the Italian government sent its first note to the cabinet at Washington asking for equitable and immediate reparation for the Italian citizens cowardly murdered in New Orieans. Harrison and Blaine, before our minister, who brought them the formal and peremptory note of the Marquis di Rudini, shed in an admirable duet of Americanized buffoonery tears of sorrow on the poor victims, but in conclusion to Italy insulted and violated the existing treaties and gave no other satisfaction than presi dential and minsterial tears. But treacher-ous tears, those of the American ministers included, are not current on the Italian market. The most cunning Blaine, having once dried up his obligatory tears, thought that the facts of the New Orleans affair could be settled in an easy and friendly manner. But the New Orleans outrage could not be a set the fact of the fact not be so slightly put aside. The slaughter at New Orleans and the behavior of the Washington government have raised in all European cabinets an awful question. The European cabinets an awful question. The United States signed treaties with us, but when the occasion came to put them into action they said they could not consider them, as they were bound by private engagements to their states. Can this ambiguity and violation of covenants last! All Europe has backed the note of the Marquis di Rudini. A recent cable dispatch has proved to the American government that the Italian cabinet is not joking and that it is quite equal to the occasion in this emergency. The United States must learn that to bold a position amongst civilized nations it is not enough to have millions of dollars, but it is necessary as a first condition sine qua non to be

Trouble. Washington, April 11 .- Special Telegram o THE BEE. ]-President Harrison had at his dinner table tonight an important quartette of politicians, for the purpose of determining an important question. They were Secretary Foster, United States Treasurer Huston, E. H. Nedeker and Judge R. S. Taylor, the latter three of Indiana. The ques-

Secretary Foster, Nedeker and Tay-lor are reported to have advised the president to insist upon Treasurer Hus-ton's remaining in office. Nedeker, although deserving the office and coming here to take it, is said to have told the president that it would be a great political mistake to let Hus-ton go back to Indiana. It is generally believed that Nedeker will be appointed.

Weekly Crop Bulletin.

Washington, April 11.-The weekly crop bulletin says: The weather during the past week in the spring wheat region, including Minnesota and the Dazotas, was generally favorable, seeding well advanced in the southern portions of this section and the ground reported in excellent condition. In the west portion of the winter wheat region the weather is generally favorable for farm work. Wheat and grass are growing rapidly. The fruit prospect is excellent. Cold weather retarded farm work in the eastern portion of the winter wheat region. Fruit escaped the recent frost with little damage. Reports from the Pacific coast indicate that crops were greatly improved by recent rains.
Farm work is backward in Oregon; early spring grain is up and fall grain very fine.
The prospects for all crops never better.

It is known that considerable pressure is being brought to bear upon Mr. Blaine to induce him to not offer objection to the use of his name at any time.

Long Bear, father of Plenty Horses, will arrive on Monday from the Rosebud agency with the \$250 that the Indian Rights association has subscribed to defend the suspected murderer. George P. Nock of this city has been retained by the defense. The outlook is that a very strong defense will be made. Plenty Horses does not now deny the killing of Lieutenant Casey, and in his defense will argue that the Indians and the whites were at war and that the death of Lieutenant Casey was a calamity of war, rather than a murder in civil life.

Parnell Admits Privately That the Cause of Home Rule Has Been Thrown Back Twenty Years.

[Copyright 1891 by James Gordon Bennett, ] London, April 11 - New York Herald Cable-Special to THE BEE. |- A vigorous attempt is being made to bring Gladstone to talk regarding the alleged interview with Irish-American extremists in 1886. Parnell's accusation is that he took counsel with the dynamiters prior to the introduction of the home rule bill, to which Gladstone gives a round and general donial, but Balfour has indirectly caused the republication of the singular correspondence which took place in July, 1886, recounting the conversation with Gladstone at Eaton hall. Duke of Westminster's. At that time Gladstone told Balfour that he had authentic information, not from Parnell, that there was a power behind Parnell which must be conciliated or a campaign of violence and outrage would be set or

Balfour said: "We are to be blown up or stabbed if we don't grant home rule by the end of the next session." Gladstone replied: "I understand the

time is shorter than that." Gladstone does not deny the accuracy of this report, and it is now alleged that Parnell knew of the occurrence at the time, and is determined to press against Gladstone. Dr. O'Reilly's denial that he had an interview with Gladstone does not meet Parnell's charge, which was not directed against O'Reilly. Parnell declares that he has proof in his possession that Gladstone yielded to the fear of dynamite outrages and tried to induce the tory government of 1886 to do the

This treacherous attack on Gladstone is much condemned by the entire liberal party as well as by the Irish members generally ncluding some of Painell's own supporters. It tends further to shut out all chance of a reconciliation between Parnell and the English liberals. The New York Union League club immi gration question met with a good deal of sympathy here. Public opinion has grown up very strongly in favor of placing the whole question of foreign immigration on a totally different basis. England is also becoming alarmed at the importation of pauper foreigners, disorganizing the labor markets, and throwing the native workmen out of em ployment. The Union league resolutions will be used with much effect in parliament. A demand will be made in the house of

commons Monday night-for the prosecution of Horatio Bottomly and the other promoters of Galignani, and similar companies for having wilfully deceived the public. The mover n the matter is Pitt Lewis. The liberal Unionist, however, cannot interfere.

An Opinion of Uncle Sam's Navy. LONDON, April 11.—[Special Cablegram to THE BEE.]—The Globe in commenting on the leader in the Times on the American navy says: "No one of the new American war ships appears to be very formidable. It is some consolation to know that in the opinion of competent judges, the inferior length and weight of these American vessels leave them no chance of catching such steamers as City of Paris or Teutonic if a contingency, which

we certainly hope is in the highest degree improbable, should make it necessary to use these racers. It is a matter in which we may honestly congratulate ourselves that the gov-ernment of the United States has determined backed up by its enormous wealth, to create a navy and indulge in speculative experiments attempting improvements on all that has heretofore been accomplished, and bringing to task the energy and cleverness of the most ingenious nation in the world. Contest at Geestemunde Assuming Proportions of a Political Contest.

Copyright 1891 by New York Associated Pres A Berlin, April 11 .- The electoral contest a Geestemunde, where Prince Bismarck's candidacy for the reienstag is opposed by candidates belonging to the socialist and progressist parties, has assumed the proportions of a great political event. Prince Bismarck has definitely accepted the candidature on the assurance that he will receive a triumphant majority. Accepting Bismarck's reappear ance in the reichstag as certain, everybody asks what his line of action will be when there. He himself states that he will sit only if political events require his intervention. Count Herbert Bismarck has told some of his friends that events seemed likely to hasten his father's presence in the reichstag. Pessimist views of the foreign situation published by the Bismarckian press generally conclude with the suggestion that the prince's continued absence from politics is bad for the country. No doubt the renewal of the European crisis is the motive for Prince Bismarck's resuming a leading role. Prof. Delbruck, the eminent free conserva-

tive, in an article in the Preus Siese Jahr bucher, predicts misfortune to the prince or the government. Either the ex-chancellor he says, will overturn the government to realize power or he will be crushed and end his life in gloom and shame.

It is hardly credible, but it is true that sub times refuse to accept dispatches inimical to the government and suppress phrases or mutilate expressions which they deem are hostile to the authorities. Plan of Campaign Abandoned. Dublin, April 11 .-- [Special Cablegram to THE BEE. ]-A sensation has been produced throughout county Limerick by the action of the tenants of the Glensbarrolds estates in

abandoning the plan of campaign which they adopted amid great enthusiasm and with expectation two years ago. For a time fund poured in from other portions of Ireland and from America whenever the tenants needed assistance, and the prospects seemed bright for the success of the movement. Gradually contributions fell off. The tenants, after a plucky fight, had already found themselves reduced to poverty when the final blow came with the outbreak of the Parnell leadership quarrel and decline of or ganized funds. For the last six month they have not received a farthing from an outside source, and they are on the verge of starvalion, many deaths among them being in fact, directly traceable to a lack of sufficient food. Men at last announced that the could no longer see their wives and childre suffer, and that they would submit to the inevitable. Today, therefore, a delegation of tenants waited upon the agents of the estate and requested to be admitted to their former holdings upon the owner's terms.

CHICAGO, April 11.—[Special Telegram to THE BEE.]—In connection with the revived rumors of a proposed Western Traffic association next Tuesday, is regarded with interest in railway circles, the question of rate cuteration, and upon the exercise of the power to discharge offending officials by the advisory board's direction will depend many hopes the value of the new association. month or two ago the Atchison was bitterly reproached for alleged manipulation of rates. Recently the Missouri Pacific has been placed in the pillory. The cutting of sugar rates charged against that road will doubt-less come up for consideration, but the Missouri Pacific is also accused of having manipulated the rate of having manipulated the rate of St. Louis beer shipments. It was said ye St Louis beer shipments. It iwas said yes-terday that conclusive evidence was on hand of the wrong doing of the Missouri Pacific. A recent report of the tonnage of that road gave a week's movement at 22,000 tons, with a revenue of about 17 per cent, while the Atchisou reported for the same week 15,000 tons, with a revenue of 14 per cent. The obvious discrepancy between the tongage and the per centage of receipts of the two reads suggest an unstable ratio of rates.

Western Cut Rates. CHICAGO, April 11 .- [Special Telegram to THE BEE. ]-The western roads which have been maintaining rates, are beginning to murmer sgainst the recent cuts. It is also rumored that Colorado business is getting a little mixed two or three cut rates that have been made.

Paris, April 11 .- | New York Herald Cable-Special to THE BEE. |-There is a flutter in the fashionable world of Paris in anticipation of the costumes to be worn at the ball to be given by Prince de Leon and the Duchesse de Gramon. We shall have costumes which will equal in every respect those of the famous fetes given in the days of the empire.

The first act of "Lohengrin" and the famous quet in the third act, was played on Wednesday evening at the residence of the Vicomtesse de Tredern, at Vendome, before an audience including all the dilletanti fashionable society. The Vicomtesse de Trenden is a daughter of Constant Say, sister of Princess Amedee A. Broglie, mother of the Princess Eraest de Ligne, and is related to all the haute societie of Paris. She would be an eminent artist were it not that she is one of the great ladies of France. She is tall un pen forte, has superb arms, hair of a dull blonde, blue eyes, and has the handsomest diamonds in Paris, and a large fortune, of which the poor get a share annually.

Already there is a good show of ponies on hand, twenty-seven in all. Very shortly the club will have its colors, pink and blue. At present there is & lack of a thorough understanding of the game visible, with one or two exceptions. Nevertheless there is plenty of good material to form a team, worthy and representative, with Pabie de Escandon and Raoul Duval, both excellent riders, to lead. We may expect to hear much of the progress of the Paris pold club in the course of time. I hear that there are possibilities of T. S. Kennedy, the famous Hurringham, bringing a team over here. Let us hope so, as he will thereby do an immense deal towards improving the

game here. The often postponed Gymkhana races came off at Pale this week. There was a large attendance. The close of the meeting was a travesty. The race was J. O. Green's idea. He won the first price in the costume of an Indian brave, Comte Rene de Astorg appeared in a beautiful Arab costume, and public opinion awarded him second prize, but the judge's didn't. In the thread and needle race Lilly Kane threaded the needle in the quickest time on record.
